Review: *We're Still Screaming*

★★★★

By [Name] on [Date]

The Who's 19th studio album, *We're Still Screaming*, is a return to form for the band. It features a mix of hard-rocking anthems and more melodic tracks. The album is a testament to the band's enduring power and creativity.

The album is a testament to the band's enduring power and creativity. It features a mix of hard-rocking anthems and more melodic tracks. The album is a testament to the band's enduring power and creativity.
